

Deburring Tools for Plastic

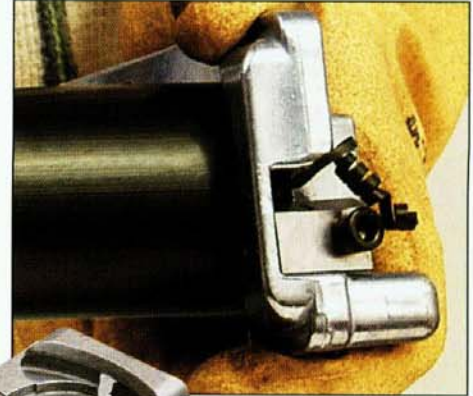

DEB2: Deburrs inner and outer edges of PVC, CPVC, ABS, PP, and PE pipe up to 2" in diameter.

DEB4: Deburrs fast - one easy revolution produces a 3/32" 15° chamfer in seconds. Gives smooth, chamfered pipe end so solvent spreads evenly as pipe is joined. Deburrs six pipe sizes: 1 1/4" through 4".

Cat. No.	Item Code	Nominal Pipe Capacity							Weight	
		in	mm	1 1/4	1 1/2	2	2 1/2	3	4	lbs
DEB2	04436	up to 2" (60 mm)							0.2	0.09
DEB4*	04430	1 1/4	1 1/2	2	2 1/2	3	4	0.7	0.32	
		42	50	63	75	90	114

Flare Tools for PE Water Service Lines

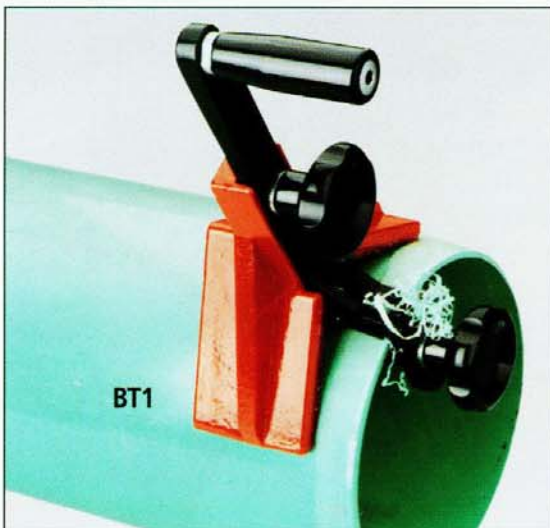

DEB4

DEB2

Bevelers

With a strong aluminum alloy frame, effective roller locking, and good tool life, a smooth 15° bevel is produced on all types of plastic pipe, including gasketed PVC and PE pipe, in about one minute. Depending on wall thickness, the bevel can be up to 1 1/2" for either PVC or PE. Easily adjustable for different pipe sizes and thicknesses, with no part changes.

BT1

Cat. No.	Item Code	Pipe Capacity		Weight	
		Inches-Nominal	Actual Ø mm	lbs	kg
BT1	04395	1 1/2 - 8	40 - 200	3.0	1.4
BT2	04398	1 1/2 - 12	40 - 300	6.1	2.8

NOTE: IF PIPE IS NOT STATIONARY, A REED PIPE VISE (P. 28-33) IS RECOMMENDED.

WHY REED?

Much faster, safer, and far more effective than a file or power saw as it reduces the possibility of leaks after joining pipe.
